

A Focused Referral Option for Persistent Pain

Laura Brown, PT, LMT

30 years of clinical experience • Clifton Park, New York

Focused, conservative, non-pharmacologic treatment for patients with persistent neuropathic or musculoskeletal pain.

WHEN TO CONSIDER REFERRAL	FOCUSED TREATMENT OPTIONS
• Persistent neuropathic or musculoskeletal pain • Burning, tingling, numbness, or nerve-related pain • Plateau despite appropriate conservative care • Preference for a non-pharmacologic option • Need for skilled, clinically focused hands-on treatment rather than relaxation massage	Scrambler Therapy Selected chronic neuropathic pain presentations, including peripheral neuropathy/CIPN, post-herpetic neuralgia, and other appropriate nerve-pain conditions. MLS Laser Therapy Selected musculoskeletal conditions including tendinopathies, joint pain, soft-tissue injuries, postoperative pain/swelling, arthritis, and persistent musculoskeletal pain. Therapeutic & Medical Massage Clinically focused hands-on treatment for myofascial pain, muscle guarding, mobility restriction, neck/back/hip pain, and related soft-tissue dysfunction.

Why refer here?

I am both a Physical Therapist and Licensed Massage Therapist, with advanced Scrambler Therapy training completed in Rome with Professor Giuseppe Marineo. Patients are screened carefully, recommendations are candid, and I refer onward when another service or level of care is more appropriate.

How to refer

New York direct-access laws allow many patients to begin physical therapy without a prescription; however, prescriptions/referrals are welcome and clinically helpful. They provide valuable information regarding diagnosis and treatment intent. Relevant records, imaging, operative information, medication history, and oncology/chemotherapy history may also be helpful when applicable.

Provider Fax: 518-430-5859

Prescriptions and relevant clinical information may be faxed directly to the office.

Patients may also contact the office directly to discuss which service is appropriate.

Payment options

Private-pay practice. Cherry financing is available, with many 0% interest payment-plan options for qualified patients. Patients can contact the office to discuss candidacy, expectations, current fees, and financing options before beginning treatment.
